

PROJECT-12

```
//program to read capital alphabets from the user
```

```
//program name: 012_As.c
```

```
#include<stdio.h>
```

```
int main()
```

```
{
```

```
    char uppercase,lowercase;
```

```
    int ascii;
```

```
    printf("Enter an upper-case character: ");
```

```
    scanf("%c",&uppercase);
```

```
    ascii=uppercase;
```

```
    lowercase=ascii+32;
```

```
    printf("\n Its lower case=%c",lowercase);
```

```
    getch();
```

```
    return 0;
```

```
}
```

```
Enter an upper-case character: X
```

```
Its lower case=x
```
