PROJECT-17

```c
//program name: 016_As.c
# include <stdio.h>
int main()
{
        int basic,allow,ded,gs,ns;
        basic=allow=ded=gs=ns=0;
        printf("Enter Basic Salary:");
        scanf("%d",&basic);
        printf("Enter Allowances:");
        scanf("%d",&allow);
        printf("Enter Deductions:");
        scanf("%d",&ded);
        gs = basic + allow;
        ns = gs - ded;
        printf("\nGross Salary:%d",gs);
        printf("\nNet Salary:%d",ns);
        printf("\n");
    return 0;
}
```

```
Enter Basic Salary:60000
Enter Allowances:2000
Enter Deductions:3000

Gross Salary:62000
Net Salary:59000
